- Product: _____
- Measure: _____ (Height) x _____ (length)
- Order Quantity: _____ pcs
- Pad weight and SAP weight : _____
- Where to Shipping: _____ (Country with postal code please)

Disposable Dog Pad Features:

【SUPER ABSORBENT & Thicker】

Thickened wee wee pads for dogs and 6-layer protection design makes our dog pee pee pads more absorbent than the most puppy potty pads on the market.

【QUICK-DRYING】

Unique flash-dry technology quickly turns liquid into gel, preventing tracking, liquid overflow, and bad smell.

Product Description

Fluff pulp

- * Fluff pulp is made from natural wood materials.
- * Mildplus disposable bed pads only use virgin fluff pulp, rejecting inferior raw materials that have been used many times.

Super Absorbent Polymer

- * SAP is a functional polymer material.
- * After absorbing water, the SAP will swell into a gel to keep the chucks pads dry and comfortable.

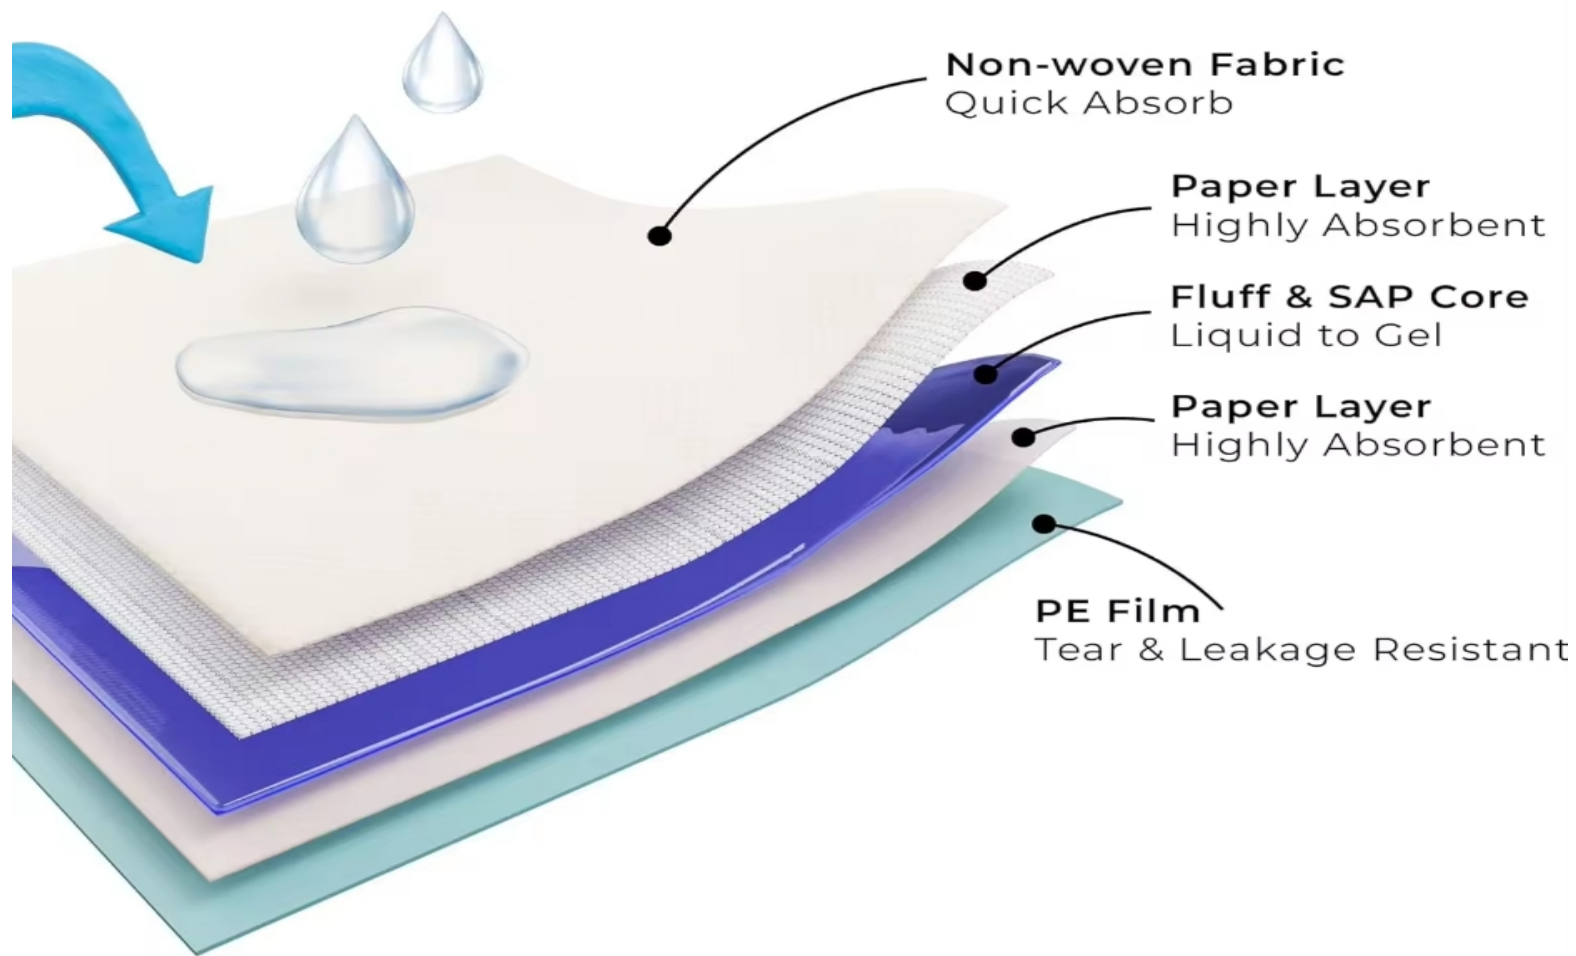

Warning:
Please do not use the underpad's background adhesive strip on "hardwood floor".

Two Adhesive Strips

- * The chux have two wide Adhesive strips to ensure that it does not move randomly.
- * The strips help the pad to be fixed on the bed, and will not leave a mark after tearing off.

5 Layer Construction

Details Images

Advantage of Pet Training Pad

- 1) High quality non-woven fabrics as top layer is clean and dry, cotton fabric feel soft.
- 2) The absorbing layer is composed of wood pulp coated by tissue paper and high polymer absorbing resin. High polymer absorbing resin can absorb liquid 150 times larger than its volume.
- 3) Capable of absorbing urine and other liquid for many times, so as to keep pad surface dry and comfortable.
- 4) Can absorb pee quickly, and keep the air in pet room fresh.
- 5) The bottom film is high quality flow casting film, never leak. It effectively prevents dirty due to liquid spilling and penetrating, and keeps the place around dry and clean.
